## Low maintenance decor for modern living

Caesarstone surfaces require minimal maintenance to keep them looking like new. Just gentle cleaning with soap & water or a mild detergent ensures ease of care for long-lasting luster.

## Quality & Service

As passionate as we are about design, we are equally committed to providing the best quality and service. Caesarstone has received worldwide recognition for our commitment to quality, safety and environmental standards. Each and every one of our surfaces is carefully inspected to ensure it meets the highest level of international quality standards.

Our surfaces come with a comprehensive warranty and professional customer service and support to our customers in over 60 countries worldwide.

# Our New 2019/20 Metropolitan Collection

The Metropolitan Collection leads the new industrial trend in urban interiors. Oxidised steel, untreated wood and raw concrete are just some of the robust materials being used by leading edge designers.

By innovating cutting-edge technology, Caesarstone has achieved these authentic finishes and patinas in quartz for the very first time – a breakthrough that you can literally feel! Engaging tactility and heightened emotion are embedded within each of the Metropolitan Collection's lively designs.

## Edge Profiles

Along with the standard 20mm thickness range, some specially selected colours in the Caesarstone range are also available in 30mm thickness for a more premium look and 13mm for vertical applications such as bathroom wall panels.

Standard Pencil Edge  
with 3-4mm Radius

Mitred  
Apron

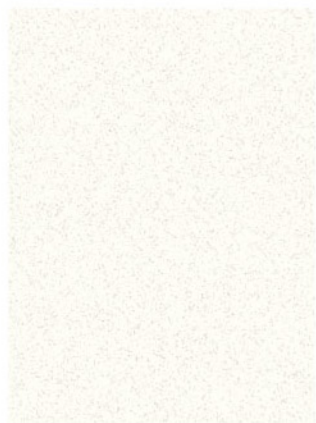

Caesarstone recommends a minimum edge radius of 3-4mm for optimal strength. For Caesarstone designs, pattern continuity is important, therefore Caesarstone recommends a mitred edge detail.
